PROFESSIONAL SUMMARY

Highly skilled and motivated Software Developer/Engineer with extensive experience in Java programming and JDBC. Proven track record in developing and maintaining robust software solutions as part of an agile development team at Ameego Labs Pvt. Ltd. Strong proficiency in creating and managing databases, executing CRUD operations, and utilizing prepared statements. Demonstrated ability to work effectively in both data analytics and software development teams. Adept at collaborating with cross-functional teams to deliver high-quality software products. Excellent problem-solving skills, with a keen eye for clean code and best practices in software development.

WORK EXPERIENCE

SOFTWARE DEVELOPER/ENGINEER

(May 2023 - May 2024)

Ameego Labs Pvt. Ltd., Lucknow

- Developed and maintained Java applications, focusing on clean code, object-oriented principles, and best practices.
- Implemented JDBC for database connectivity, managing CRUD operations, and utilizing prepared statements for secure data handling.
- Worked in an agile environment, participating in sprint planning, daily stand-ups, and retrospectives.
- Collaborated with the data analytics team to integrate software solutions and ensure seamless data flow.
- Contributed to the development of software projects under the guidance of the team lead, Jasmit Ahuja.
- Ensured high code quality through unit testing and debugging, utilizing JUnit and logging techniques.
- Received performance-based incentives for outstanding contributions to project success and team collaboration.

INTERN

(Jan 2023 - June 2023)

Ameego Labs Pvt. Ltd., Lucknow

- Assisted in developing and testing Java applications under the supervision of senior developers.
- Gained hands-on experience with JDBC for database connectivity and CRUD operations.
- Participated in code reviews, learning best practices for clean code and efficient problem-solving.
- Contributed to team meetings and agile ceremonies, gaining insights into agile methodologies and project management.
- Collaborated with the software development team to implement small-scale features and bug fixes.
- Enhanced technical skills and knowledge through practical application and mentorship from experienced professionals.

PROFESSIONAL SKILLS

- Proficiency in Java, encompassing core concepts such as Object-Oriented Programming (OOP) principles like Encapsulation, Abstraction, Inheritance, and Polymorphism, as well as Exception Handling and Collection Framework.
- Knowledge of J2EE technologies including JDBC (Simple, Prepared, Callable Statements), Servlet, JSP, and JPA.
- Familiarity with HTML, CSS, Tailwind CSS.
- JavaScript.
- Proficiency in React.js.
- Competence in SQL, covering DQL, DML, TCL, DDL, DCL.

PERSONAL PROJECTS

- J2EE Servlet Maven project: Car Rental Portal (Full frontend and backend implementation).
- Music Player Web application using Spotify API.
- Crafting of the Universal Pictures & Nike Shoe Landing Page using React.js and Tailwind CSS.
- Replication of the Netflix Home Page utilizing HTML and CSS exclusively.
- Please refer to the following account for the projects mentioned above and additional projects: Git: Sudhir-tbk-9.

TOOLS

- Eclipse IDE
- IntelliJ
- Spring Tool Suite 4
- Microsoft Visual Studio Code
- Hibernate and Spring Boot Frameworks
- Databases: Oracle and MySQL
- Git
- MySQL Workbench

EDUCATION AND CERTIFICATION

- Java Full Stack Course : QSpyder (2022 - 2023) : Completed comprehensive training in Java full stack development, gaining proficiency in front-end and back-end technologies.
